If our friends who favor us with manu to have rejected articles returned they must in all cases send stamps for that purpose.

_____ Wilson, Marshall and the Three Ps.

The Democratic party last night nominated for a second term the agile politician · whom it had previously pledged to the principle of a single term. This is one fact of a situation replete with insincerity. The President's course from Baltimore to St. Louis has obliterated any title which he might otherwise have to the confidence of the voters. Who cares what saying, when the platform of 1912 is there is much to be done. in evidence as a scrap of paper? It has been used as a shelter by Mr. Wilson when it suited his conveni-Wilson Administration?

To the Editor of The Sun-Ser: locthe's last words were "Light! more

fronted with more of these problems in the future. To an intelligent use of he snowflake it is necessary to know how such problems will affect the next President of the United States. As to one candidate we need no further lightenment, for nearly two years he

has lived in the "fierce light which beats upon a throne"—equally a throne whether King or President occupies it. He has been confronted with serious problems and has dealt with them. From is record we can discover all the dements of his personal equation, and outhing possible future problems can, touching possible future problems can, with reasonable certainty, deduce his probable orientation.

As to the other candidate; touching these practical matters we have no incourts, in our opinion, should all be the Swiss Confederation, who serves formation at all. Quite naturally so; personally and publicly any criticisms he might entertain (if he entertained any) as to the conduct of the Administration, as other men, his competitors for the nomination, were free to do: a freedom so fully exercised that as to he three most prominent ones we know juite accurately their personal equation relation to these questions outside of our domestic concerns.

It is for the candidate who now asks

the votes of those who criticise the ourse of the present Administration to ive them the necessary information— i the concrete, not in the abstract. This we have not yet had. An evening paper says that Mr. Hughes announced that his attitude is one of unadulterated Americanism, that he is an out and out an. The reporter adds that on this statement Mr. Henry Clews American. Perhaps it does to Mr. Clews, remaps it does to Mr. Clews, but to others of us it means no more than the characterization of the telegram of acceptance, an "Americanism that knows no ulterior purpose: a patriotism that is single and complete".

Some of us have severely criticised the President for action or non-action President his friends in North Care during these past twenty months, but would like to know how he squares during these past twenty months, but none of us, who are fair minded, doubted that in whatever he did or refrained from doing he honestly, sincerely and conscientiously believed that he was an "unadulterated," an "out and out American" and was acting, according to his lights, without ulterior purpose and with a patriotism single and complete. So these general statements do not help.

Generally succeeding to his should resign as Chief Justice.

J. M. Millijken.

Generally succeeding to his should resign as Chief Justice.
